

BA0-R bibliography expansion ledger

Revision 3 - research history

Candidate	Origin	Why it may matter	Decision after SRC-0048
ISO/IEC/IEEE 42010:2022 full text	SRC-0043/0048	current normative edition / delta from 2011	DESIRABLE, NOT BLOCKING; acquire only for current clause-level claims
Clements et al., Views and Beyond	SRC-0048	deeper view/viewtype semantics	DEFER unless BA4 terminology is contested
Nuseibeh, Kramer & Finkelstein (1994)	SRC-0048	cross-view relation theory in RE	DEFER unless BA3/BA4 relation semantics are contested
Boucke (2009), architectural model relations	SRC-0048	model-relation taxonomy	DEFER unless correspondence semantics become central
Kruchten (2004), architecture decision ontology	SRC-0048	decision relation vocabulary	DEFER unless Decision mapping is contested
Rozanski & Woods (2005)	SRC-0048	viewpoints and perspectives	DEFER; BA4-specific pressure source
RM-ODP / ISO 10746 / ISO 19793	SRC-0048	multi-view distributed-system semantics	DEFER unless n-ary correspondence or distributed views become unresolved
Dori (2002), OPM	SRC-0047	broader OPM theory	DEFER; reflective metamodel sufficient for BA0
ISO 19450:2024 full text	SRC-0047	current OPM normative semantics	DEFER unless clause-level OPM claims needed
ArchiMate 3.2 full text	SRC-0045	normative active/behavior/passive semantics	LOW PRIORITY
SAE AS5506 current AADL	SRC-0044	current AADL normative semantics	DEFER unless AADL-specific claims needed

1 Bounded-search decision

The current corpus is sufficient to enter BA0. No additional source is mandatory before BA0 unless a concrete downstream counterexample requires it. SRC-0048 changes the view/projection conclusion enough to justify Revision 3, but it does not trigger further open-ended literature expansion.
